DANGER

ZONE

Every year, accidental poisonings result in the deaths of too many young children. Often, everyday household cleaning products and chemicals are the cause. Take these steps to protect your child against accidental poisoning.

Poison Prevention Guidelines for Household and Chemical Products

- Keep chemicals and household products out of the sight and reach of children.
- Buy household products in child-resistant containers and keep products in their original packaging.
- Store food and household products in separate areas.
- Don't allow distractions to prevent you from being watchful when using household chemicals.

Know Your Limits

Maybe you like the feel of the open road or maybe you're just in a hurry. But the fact remains, that speed limits are carefully set to give you the safest possible driving speed for each road's particular traffic conditions. And because speeding is dangerous, the penalties are stiff.

So whenever time is of the essence, start out early and obey your local speed signs. Then you can enjoy a safe and leisurely ride without having to worry about the fines.
